

WHICH KIND OF N95 RESPIRATOR IS RIGHT FOR ME?

HOW DO I KNOW THIS N95 WILL WORK?

- Project N95 vets and verifies all products and suppliers
- All N95 respirators for sale carry (at minimum) a NIOSH certification. We have some respirators available that also carry the FDA 510K certification. Certifications are publicly available and can be shared with you.

I'VE NEVER BOUGHT THESE BEFORE!

This can be overwhelming. We are here to help! Meanwhile, here are some tips:

- If you've been fit tested to a certain style, try to stick with that style
- If you're not sure what style works for you, the Alpha Pro Tech is universally sized and meant for many face shapes.

SIZING TIPS

Small faces: PHG 5160 or Alpha Pro Tech

Medium/Large faces: M/L cup Demetech or Makrite, the Demetech flat fold, PHG 5160 (Medium only) or Alpha Pro Tech

Unsure about sizing: Try the Alpha Pro Tech with Universal Sizing and Positive Facial Lock seal

Molded cup
(Makrite or Demetech)

Flat pleat, universal sizing
(Alpha Pro Tech)

Flat fold
(PHG 5160)

Flat fold
(Demetech)
